### Frequently Requested Child Care Information

Queen Anne's County has approximately 3,334 children from birth through age five, and 6.4 percent of them live in households below the poverty line. Meanwhile, the average weekly cost for full-time child care in Queen Anne's County is \$17,321 per year.

No one would suggest that public school teachers are paid what they deserve. However, child care providers, based on average gross income, earn far less than their public school counterparts, who earn \$74,757 on average. Meanwhile, in the same location, a family child care providers makes just \$38,520, and a child care center teacher earns only \$25,568. Many educators who we entrust to teach and care for our children are forced to rely on public assistance to make ends meet.

The Maryland General Assembly expanded access to the Maryland Child Care Scholarship Program in recent years. Also, in 2024, the Moore Administration committed new State funds in the amounts of \$218 million for FY 2024 and \$270 million for FY 2025 for the Child Care Scholarship Program (CCSP). These have proven to be a significant step in removing barriers to families' access to child care.

We encourage you to reach out to your local [Child Care Resource Center](#). MFN is the State Coordinating Entity of these centers which make up the Maryland Child Care Resource Network. Each center provides leadership, professional development, coaching, and other services to improve the quality, availability, and affordability of child care in communities across the state.

We hope the following demographic information is helpful as we continue to make improvements for Maryland's youngest children and those who care for them.
